• Mobile Application Development | Andorid App development | React Native | Firebase | Flutter | Git | App development: Flutter & Dart, React & React native, | MongoDB | JavaScript | Python | MySQL

WORK EXPERIENCE

JMR Infotech

City: Bangalore | **Country**: India

[29/01/2025 – 20/05/2025]

Software Consultant

Developed and maintained cross-platform mobile apps using Flutter and React Native. Collaborated with backend teams to integrate APIs and ensure smooth app performance. Participated in testing, debugging, and deploying apps to app stores

Dynamic method solution

City: Ahmedabad | **Country**: India

[05/06/2023 – 10/01/2025]

Software Developer

I worked across multiple platforms and technologies, including Android (Java/Kotlin), Flutter with Firebase, and React Native. My responsibilities involved end-to-end mobile application development and maintenance for both Android and iOS platforms.

This included API integration, CI/CD implementation, and deploying apps to the Google Play Store and Apple App Store.

Key Skills: Android/iOS Development, React Native, Flutter-Firebase, API Integration, CI/CD, App Deployment

Leeway Softech Pvt Ltd

City: Bhavnagar | **Country**: India

[01/09/2022 – 31/05/2023]

Mobile Application Developer

I worked at the company where I was responsible for developing and deploying robust cross-platform mobile applications for Android and iOS using a single Flutter codebase. My role included writing clean and readable Dart code, managing both front-end and back-end development, performing functional testing, and handling app hosting.

Phoenix IT PARK

City: Ahmedabad | **Country**: India

[01/01/2021 – 01/06/2021]

Python developer internship

During my academic project, I worked at Phoenix IT Company in Ahmedabad, where I developed an Android-based application using Python and the Kivy framework. The application, named *E-Medicare*, included various functionalities tailored for healthcare services.
